

# Coloured Bolt Bags

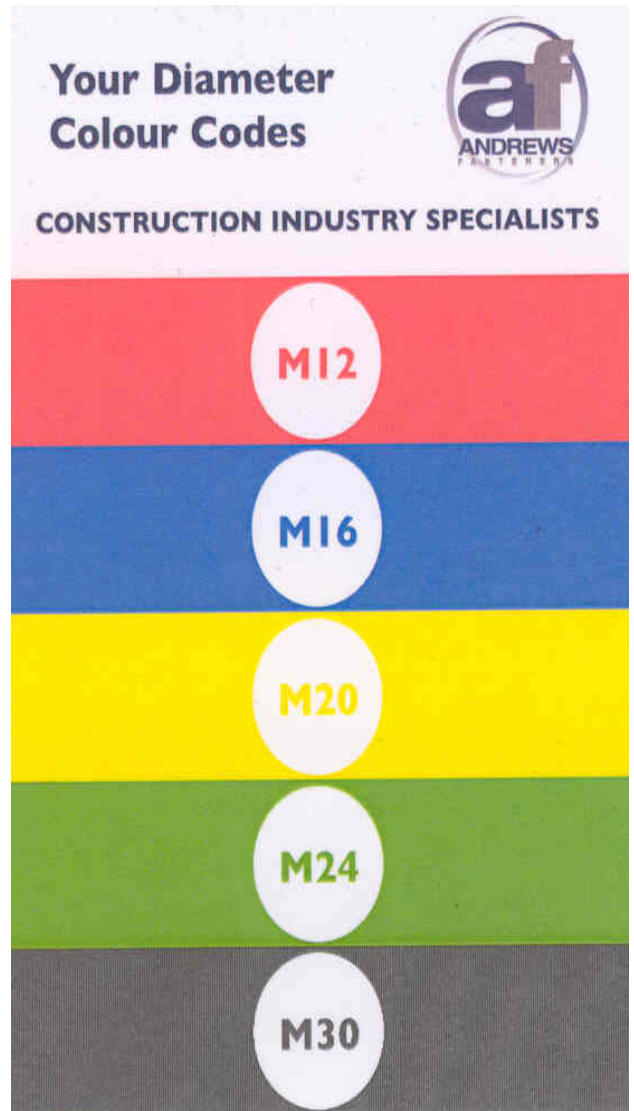

Peers use standardized bolts in erection. To further assist the erectors we now deliver these bolts in colour coded bags which instantly identifies their size.

A Typical Pile of Bolts

Colour Coded Bolt Bags

Andrews Colour Code

Key Points:-

1. The colour coded bags make it easy for the erectors to locate the correct bolts.
2. No time wasted opening several bags and no bolts emptied out to identify them, thus improving housekeeping.
3. Conventional bolt bag tags are OK but they have a tendency to come loose.
4. Bags of bolts can be heavy, so if you know which bag you want it will save unnecessary lifting and moving.
5. Any time saved on site will help reduce the chance of accidents occurring.
