

MAGNETIC PLASTER

Have you ever needed a whiteboard or display board and no space to fix one? How about that awkward planning meeting trying to stick sheets to the lovely finished walls? Well thanks to this new product you can turn your entire wall into your very own creative space!! This new arrival now means you no longer need unsightly notice boards or damage the wall finishing's with tapes and blu-tack. Now when you're designing your new workspace, classroom or presentation/meeting room incorporate this new plaster and you now have a creative workspace to stick anything to! What's more if used in conjunction with chalk board paint you can create the perfect creative space!! This product is still very new to the construction industry so prices are unfortunately on the high side but this product can turn a useless space into a creative one during the construction phase.

Key Benefits –

- No need to fix notice boards causing damage to walls.
- No need to use blu-tak or sticky tape to fix that poster to the wall.
- Turns any wall into a magnetic notice board no matter how much space you have available.
